Publication frequency:  
Sporadic

Internet: [www.figu.org](http://www.figu.org)  
E-letter: [info@figu.org](mailto:info@figu.org)

22nd year  
No. 101, Aug. 2016

**Organ for free, politically independent views and opinions on world affairs** According to the 'Universal Declaration of Human Rights' of December 10, 1948, Article 19, 'Freedom of Expression and Information':  
**Everyone has the right to freedom of opinion and expression; this right includes freedom to hold opinions and to vote.**

**Freedom to adhere to opinions unchallenged and to seek, receive and disseminate information and ideas by any means of communication without regard to boundaries.**

Statements and opinions do not necessarily have to be identical with the thoughts, interests, doctrine and mission of FIGU.

---

## Reader questions

Much appreciated

Billy,

My family and I, as well as acquaintances and friends - we are 36 people -, always read on the Internet the FIGU bulletins and the BEAM portal, in which we are all very interested. And since you sometimes answer readers' questions in the bulletin publications, we want to ask if you and the Plejaren also talk about the refugee welcome madness of crazy Merkel, and also if not only real refugees come to Europe, but also criminals and terrorists. We all have nothing against real refugees who have to fear for their lives, just as we have nothing against their religions. But we think that with the invasion of innumerable refugees in Europe enormous and gigantic problems arise - which are already big enough by the dictatorial and people-terrorizing ideology of the EU alone - which can be solved only with difficulty or not at all, whereby it does not play a role whether the refugees come from Africa, Afghanistan, Iraq and Syria etc.. Many are certainly fleeing from their home countries because they are no longer sure of their lives due to acts of war or because they are being persecuted by terrorists and threatened with death, as by the IS criminals, but we think that along with the real refugees, many are also coming to Europe who do not want to work and only want to live off the state. And we also think that many criminals and criminals also come and then do their mischief and thus disturb the peace and order, etc.. But surely terrorists will also come, who will then murder many innocent people in Europe through their reprehensible actions, as has happened in France, Belgium and also in Germany in recent months and has cost many innocent lives. What interests us further is whether you and the Plejaren have also talked about what to think of the military coup in Turkey. If you know something about that, can you tell us if you and the Plejaren talk about it, and if so, what is your opinion about it, which you could publish in one of your next bulletins?

U. Singer, Germany

## Reply

Also, with regard to all these things that you mention, we talk, but mostly in a purely private way. With regard to the refugee flows from Africa, Afghanistan,

Iraq and Syria etc. was actually talked about on January 30, 2016 at the 642nd contact meeting, what results regarding work-shy, criminals, criminals and terrorists, who sneak into Europe together with effectively real refugees. A fact that has been emerging since that time, since the reality-estranged-naive German Chancellor Angela Merkel has been running her welcome culture for refugees and has been supported by all her insane, confused, mind- and reason-less fellow roarers. And these people are either absolute psychological losers and so blind that they do not recognize what is going on with this woman, or they are completely obsessed with power that they do not dare to go against Angela Merkel and her actions because they do not want to put their position of power at risk.

### **Excerpt from the 642nd contact meeting on January 30, 2016**

**Billy** You promised me on your last visit during our private conversation on January 6 that you were working to clarify how many al Qaeda and IS sleepers have crept into Europe so far with the refugee flows.

**Ptaah** This clarification was carried out, and in fact our research lasted until January 20, but we are still continuing it. We elicited a number of 17,461 individuals who are directly linked to the Islamist State as well as to the Al-Qaeda terrorist organization and who are to be designated as so-called 'sleepers'.

**Billy** Then Europe can expect a lot of terrorist acts. But when I said and wrote that with the refugee flows also killers of the terrorist organizations of IS and Al-Qaeda are infiltrating into Europe, they only laughed about it and even secret services denied that it is so.

**Ptaah** Even many people of the earthly secret services are naive, what they want to cover, however, by secret intrigue actions and criminal-criminal acts.

**Billy** This has always been the case. Also, like many psychologists and psychiatrists, including those who work for the judiciary, they think that they are very psychologically-psychiatrically educated, although their findings and knowledge comprise only just 28% of the psychological-psychiatric knowledge that is peculiar to you Plejaren.

**Ptaah** This cannot be changed if the earthly psychologists and psychiatrists do not strive for more insights and knowledge as well as for a more comprehensive understanding.

**Billy** But they don't and believe they are gods in their field, which is why so many misjudgments are made and why imprisoned murderers are allowed to go free.

**Ptaah** Unfortunately, this often creates new mischief.

**Billy** I agree. ...

### **Answer to question 2**

Now, as far as your second question is concerned, which relates to the military coup in Turkey, in this regard, it should be said that this was also discussed, with Pleiadian Ptaah stating at the 656th Contact Meeting on July 17, 2016 that Turkish President Recep Tayyip Erdogan himself hatched the whole of the military coup and its 'suppression'. Already in 2014, Ptaah stated

in a private conversation when Erdogan came to power as the twelfth president of the Republic of Turkey on August 28, 2014, that he was striving for a dictatorship based on religion, which should now be understood in the sense of an autocracy-dictatorship.

## **In the matter of the planned framework agreement between Switzerland and the EU dictatorship**

### **Excerpt from the 656th contact meeting on July 17, 2016**

**Billy** Then I would like to ask you something that once again relates to Switzerland and the EU dictatorship, if you know what it is about. There was talk about a so-called framework treaty, which is to be discussed. Since you are concerned with what happens between Switzerland and the EU dictatorship all the time, you surely know, don't you?

**Ptaah** That is the case, yes. This impure affair is an attack on the protection of the free democratic basic order, which is damaging for Switzerland and its population, in such a way that in a deceitful way the constitutional protection and the legal foundations are to be surreptitiously circumvented and infiltrated, if this framework agreement should come about in the intended extension. The fundamental culprit for this request concerns a ... of Switzerland, ... who, with regard to his idea, is short-sighted, inconsiderate and not recognizing the actual facts with regard to the plans of the EU dictatorship and thus also out of touch with reality, is willing, in his inadequacy, on the one hand, to unconsciously harass the federal constitution, on the other hand, to put the freedom and neutrality of Switzerland at risk with such a treaty. Subsequently, the proposed treaty, if it were to come into being, would creepingly undermine Switzerland's own jurisdiction and replace it with EU dictatorship courts. In his ignorance, the actual author of his request regarding the agreement is just as unaware of the resulting consequences as are all his like-minded people, who unfortunately are very numerous in the Swiss population and tend to join the EU dictatorship and are willing to do a genuflection before the EU dictatorship, as such a genuflection was done by the German people before the Nazis and led to the last world war. Should the agreement come about, then Switzerland would in a creeping way over the coming periods of time ultimately be nothing more than an EU dictatorship vassal state, which would only be allowed to act and exist according to the EU dictatorship specifications, while the legislation of Switzerland would in the course of time fall under the thumb of the EU dictatorship laws.

**Billy** And all the pathologically stupid EU dictatorship supporters of Switzerland of course do not see that. And that with the ... as an originator a homeland betrayal is behind it, which is not conscious to him, as also with all other like-minded people, that is not recognized, because with all the necessary intelligence and reason is missing.

**Ptaah** Unfortunately, this is so, because only people who lack the clear thinking and judgment and therefore the genius, intellect and sagacity as well as understanding, reason and moreover the bearing of the responsibility for the national peace, the far-reaching democracy, neutrality, freedom and security, as these values exist in Switzerland, can throw away their homeland betraying a dictatorship and join in its suppression of all rights.

**Reader question**

Isn't it dangerous what the West, precisely the European Union, which I also judge to be a dictatorship, and America are doing against Russia?

U. Krauer,  
Switzerland

**Response**

:

To this I can only give an answer of the Pleiar Ptaah, according to a contact conversation of July 17, 2016.

Billy

**Billy** What else interests me: The USA, but also the EU dictatorship and above all Angela Merkel, who controls the EU dictators, continue to work provocatively against Russia, especially with allegations of lies, unjustified sanctions, slander and with military marches and missile deployments etc. in East-EU dictatorship countries, as well as with lousy interferences with regard to Ukraine. Can you tell me what this will actually lead to?

**Ptaah** What the EU dictatorship and its secret leader Merkel as well as the USA in the relations mentioned by you take themselves out and subordinate, leads to a new endangerment of the very strange and shaky world peace, if one can speak at all of such, because in dozens of states dictatorships and terror organizations as well as criminal organizations drive their mischief. So, if I speak of a world peace, then such a peace refers only in the understanding in relation to the prevailing doubtful 'state of peace', as this has resulted after the three world wars in the years 1756-1763, 1914-1918 and 1939-1945 only as a so-called 'victor's peace' by the world-wide world war termination. But what now results from the intrigues against Russia - how these are operated by the USA and the EU dictatorship, with the German Chancellor Merkel in the front line, who decisively controls in an unpleasant way especially the EU dictatorship and its dictators, without them being aware how they are under the influence of this woman - that is extremely unpleasant. And the unpleasant thing is that as a result of the criminal machinations of the Western world against Russia - with the evils emanating especially from the entire EU dictatorship and from the USA - Putin has been distancing himself from the West for quite some time and has already begun to build up a far-reaching and in the future probably to come about militarily violent alliance with China as well as with Arab-Oriental and Asian as well as other states. This alliance is becoming more and more extensive and powerful and slowly means a danger for the West, which is especially directed at the entire EU dictatorship and the USA and was provoked by them themselves. So, a dangerous alliance for the West is being built up by states that are not exactly friendly to the EU dictatorship and the USA. These are the unpleasant facts that exist at present.

### **Conversations with Sfath Contact Conversation Excerpt from Sunday, May 5, 1946**

**Sfath** You have turned nine years old in February, have learned a lot during the last two years through my teachings and are now very knowledgeable in many matters. What I have to explain to you today, however, corresponds to a further continuation of your decision and all those explanations and facts which I have already mentioned to you on June 2, 1944, during our first larger decision and explanation talk, which was then followed by further informative talks until today. Then last year, it was on February 3, 1945, I brought you my first initiation and introduction talk and initiated you in a clear way into the task of your mission. It ...

**Eduard** Sfath, may I interrupt you?

**Sfath** Of course, if you have a question?

**Eduard** Yes, that's because I don't understand why you say that we had a first conversation twice, just one on June 2, 1944, then a first conversation on February 3, 1945. The really first conversation was the ...

**Sfath** Your question is justified, but it has to be explained that the first conversation in June 1944 was, from my point of view, an informative explanatory and decision-making conversation and therefore has to be understood in this way as the first conversation. The second and first conversation of February 3, 1945, on the other hand, was a factual introductory, initiation and clarification conversation concerning your task and mission as well as many circumstances etc. My naming of these two conversations may seem confusing to you, but they are really to be regarded, judged and understood as two different first conversations.

**Eduard** Yes, it is a bit confusing, but I can understand it.

**Sfath** As already the last years, I have to acquaint you also today with many facts, which you will understand very well and also consciously cope with and process, but which will only be possible for you, because you are already developed many times more in your reason and in your intellect by my intervention in your development of consciousness, than this can normally be the case with an earth boy at your age and even with an earth man four times older. Well, also with regard to the first and all other conversations held with you concerning the explanation of your task and mission, there is still something to be said, namely that I will bring up the same facts several times and at different times, which is based in it, so that through this method of repetition you will again and again recall with interest the details of all that is of important significance for you and your task and mission from my explanations and all that you have learned and continue to learn. This also includes knowledge which will interest you only in later decades, but I want to point out to you already today that you will have to deal with it intensively already from the next decade and especially at the latest from the 1970s when you start to build up your work and mission. You will have to inform yourself in detail and learn new things, namely concerning the financial system, for which I want to explain the following: The future of the earthly banking, company and corporate system as well as of politics, governments and the economy will be very profitable in the next decades, after which, however, a comprehensive mismanagement will appear in all camps and will cause many things to collapse from the 1980s until far into the new millennium. Especially in Europe, and therefore also in Switzerland, as well as in the USA and Canada, the banks, companies and corporations will fall into great difficulties and will have to take state aid for their continued existence, but for some of them their mismanagement will lead to bankruptcy. However, the populations of many of these countries, especially in Europe, the USA and Canada, will also become privately indebted to such an extent that they will no longer be able to meet their financial obligations, as will be the case with the national budgets of many countries, which will no longer be able to manage their debts. The whole thing leads to serious economic collapses and to the dissolution and bankruptcies of long-established banks, companies and corporations that have been run by right for many years, as well as to years of state financial problems and constant changes of government as a result of rulers who are incapable of governing. And to speak again on the private sector, so arise, as already said, large financial debts, because a senseless and uncontrollable squandering of money for many unnecessary things in the populations will spread far and even family discord and family destruction as well as heavy criminal and criminal acts and deeds will cause. Due to the emerging and rapidly developing economic boom, the wages of the working people will rapidly increase and also drive the general standard of living into higher forms, which will tempt people to afford ever greater financial expenses and incur debts that they cannot afford in terms of their wage income. For you, your family, the work and mission group and its individual members, as well as for a center which you will build according to your ideas with the help of your faithful gathering around you in a place known to you, on a not far elevated place near the birthplace of your mother, you will then continue your efforts to familiarize yourself with a large financial budget. And in this respect you will

you will voluntarily take over the responsibility and administration for the community which you will form as an association and whose members you will also assist with advice and help. However, the future of the financial economy will be difficult, because from the year 1988 it will become really gloomy in the whole world concerning money, because then in the USA the foundation of a capital power will take place, which will intervene as a worldwide acting shadow bank and world shadow government in the whole world finance and will dominate many countries and their structures. In the USA itself this capital power will develop to a state-internal shadow government, which - in a secret way for the population of the USA - will govern the United States of America according to its will, as this also happens by another US-American shadow government, which already exists for a long time and will also maintain itself into far future. The new capital power, which will be established in 1988, as I have already explained, will build up a worldwide capital network, and this in a short time, whereby then not only extensively the world financial world of the banks, but also the politics, various state systems and the economy of many countries will be ruled according to the own power structures of this world shadow government. Concerning these things you must learn a lot, so also many facts, which I have already mentioned to you and also will continue to mention, use, in order to write fact pointing and warning letters concerning the dangerous unpeaceful coming world events. But you shall also name the threatening, calamitous, the nature, the waters and the climate destroying, degenerating and all the natural undermining machinations of the overpopulation, which will lead up to very serious and primeval natural disasters, if all the future threatening and degenerating machinations of the very rapidly developing overpopulation are not stopped. For this the beginning is already set with the overpopulation of about 2.8 billion people, which since the last century and especially in this century will cause many climate- and nature-destroying machinations in connection with the mechanization and the misuse of atomic energy as well as the criminal spreading of gases and poisons etc., which will already have serious consequences. So the bad effects concerning the climate destruction resulting from the fault of the earthly mankind will already appear in the next month of December. And that these coming and into far future continuing climatic changes will be real consequences of the overpopulation, will be denied by the scientists and all responsible persons until far into the 3rd millennium. It is true that in time it will be recognized that all kinds of irresponsible machinations of mankind will cause the climate change, but there will be no question that the nature-, planet- and climate-destroying machinations will come about in their extent only by the far above the earth-tolerable measure of the inexorably growing overpopulation. The main causes of the climate change, which will actually be a climate destruction, will be based in various manipulative forms triggered by the mass mankind, by which the whole earthly ecosystem, the climate, the atmosphere and nature and the whole planet will be involved destructively up to its foundations. Everything will be triggered by irresponsible exploitation of earth resources, poisoning and pestilence of the atmosphere, nature, fauna and flora, seas and inland waters, by many kinds of toxic gases, emissions from explosion engines and heaters running on fossil fuels. Also artificial fertilizers and all kinds of herbicides, pesticides and many other substances will have a destructive effect on the whole nature, fauna and flora and will also cause many serious diseases among people. The ozone layer will be dangerously depleted by toxic gases, which will lead to skin cancer and other ailments, and will also cause many changes in flora and fauna. Also all seas and inland waters will be polluted and contaminated with toxins and all kinds of garbage. Especially many kinds of plastics in all waters of the world will bring a miserable dying and death for innumerable water life forms, which will happen in such a way also on meadows, meadows and forests and concerning many land living beings. The plastic, I want to explain, was already invented in the year 1531 in the former Germany from the processing of cheese as 'artificial horn' or 'casein', however, also in the next decades again new forms and products will be invented, which will lead in the course of few decades to a bad environmental disaster, because the people will dispose of huge amounts of the plastics carelessly and irresponsibly in the free nature. And all the causes and effects will lead to environmental catastrophes, which the entire earthly mankind will not be able to cope with, if at all, because in relation to the growing overpopulation everything will become more and more extensive, dangerous, life-destroying and destructive in terms of environmental pollution, environmental, planetary, natural, climatic, atmospheric and fauna and flora destruction. And the beginning for this was laid by the already now existing overpopulation and its degenerated machinations, to which in worst way the world-wide coming climate change with its world-wide destroying consequences will belong.

For this, first of all, the USA will provide the original reason and will bear the full blame, namely through its criminally irresponsible first atomic test and the two atomic bombs dropped on Hiroshima and Nagasaki. These three irresponsible crimes committed against the planet, the nature, the climate, the fauna and flora and against the mankind now lead from the coming month of December to the first drastic and momentous appearing effects concerning a fast and unstoppable developing and all-embracing very disadvantageous climate change. So in eight months a then from then on more and more expanding climate change will announce itself unchangeably, from which in the next 50 years more and more bad natural disasters will develop, which will cause on the whole earth unimagined much human need and misery as well as destructions. But what will result now by the American atomic crime extensively at the planet, the whole earthly mankind, the nature, fauna and flora, the atmosphere and at the climate, that takes now everything its destroying course, consequently the first heavy climatic changes are imminent, which announce themselves from coming month December. So it comes that in the coming month of December the whole of Central Europe will be hit by an unusual cold wave up to minus 30 degrees, which will also seize England and lead to the death by frostbite of a large number of people and will end only in the middle of the month of March next year, i.e. in 1947. But the coming extreme weather conditions will be much more far-reaching and will last until 1948 and will also bring much hardship, suffering and misery for the people in other countries, and also in the future far into the 3rd millennium. And this will also be with the forthcoming cold winter, which will be called 'hunger winter' from next year and will also be in connection with the food crisis which has already begun at the beginning of this year, which will cause the death of several hundreds of thousands of people in Europe, will also spread to the Soviet Union and will bring death for more than 2.4 million people there, as well as in other countries. But when next year the cold wave will find its end in the month of March, then on the contrary a big heat wave and with it a very hot summer will begin, which will last in the whole of Europe until the end of September, will not bring a drop of rain and will be registered in the annals as 'steppe summer 1947'. Depending on the place and the area, temperatures will at times range from 39.5 degrees Celsius in the shade to 47 degrees Celsius in the sun, with certain fruit trees blooming twice and bearing small fruits. Fields, vegetable gardens and meadows will dry up, as will smaller lakes and streams, just as large lakes and rivers will fall to a very low water level. And because of the lack of rainwater everywhere, many livestock will have to be slaughtered throughout Europe, because due to the lack of rain no more fodder will grow for the animals. Water will then also be lacking in nature, where animals will die of thirst, and so, two years after the last world war, there will be great hardship all around, with people in certain areas suffering from hunger, which will be exacerbated by the extreme heat. And because in many places there will be no rain at all and no water at all, there will be terrible harvest prospects, because the days will be hot and sunny and will not allow plants to grow, and because there will be no rain, the farmers will not be able to sow the next seeds, consequently there will be no harvests and then there will be shortages of certain foodstuffs. However, the whole of the cold wave and heat wave will be trivialized by meteorologists, climatologists, by certain other scientists and by the population and attributed to natural weather changes. It will be claimed for a long time and into the 3rd millennium that these are natural changing weather processes that would occur from time to time, consequently during the next following five decades neither scientists nor mankind itself will worry about the real causes. All of them will contradict the facts that everything will be caused by the degenerating and irresponsible machinations of the all-destroying excesses of overpopulation in nature, on the climate and on the atmosphere, and that it will spread more and more and will begin to be rampant without salvation. The coming decades will bring also many new uprisings, civil wars, wars and revolutions around the earth until far into the 3rd millennium, as also malicious and unscrupulous dictators will continue to exercise their murderous work over their peoples, to which many times the USA will do as traditional everything to overthrow foreign governments for the sake of the own advantage. In the foreseeable future also a worldwide and religiously conditioned sectarian and on the other hand also inhumanly criminal terrorism will arise, for which likewise the USA with its policy and from the year 1756 practically all USA state powers since then live in the delusion, with secret service, military and warlike interventions in the interests of foreign states to have to tear the world domination to itself and to rob the 'defeated' states concerning their earth resources and treasures. And this will do with very few exceptions - which you can count on half a hand - also the coming further USA rulers, because the American world domination mania will continue to exist unrestrained and will bring also in the future infinitely much suffering and misery, torture, death and destruction over the world. However, all those elements also act in the same way and draw

with, who are in power at present and as fellow travelers and therefore also of the same mind, as also all like ones will act in the same way, who will be in the future. And these will be the state powers themselves, as well as their advisers and fellow travelers, commanders and command-exercisers of the secret services and the military etc.. But worldwide also criminal organizations of various kinds will arise, as well as extreme-radical racist and religious sectarian organizations, from which also various religious and delusion-related death sects will arise, which will claim hundreds of thousands of murdered people especially in the USA, in South America, in Switzerland, in Japan and Canada, as well as in Arabia, Africa, Asia, France and in some other countries in Europe as a result of religious insanity and delusion of power. You will have to consider all these facts just as thoroughly as all that I have explained, said and taught you in the last years, because you will have to write corresponding letters from the next decade on, which you are to send to all governments and to many public media, in order to point out to them what will happen, if earthly mankind does not finally exercise reason extensively. If this does not happen, your words are not heeded and do not bear fruit, then the earth and its mankind will face a very evil and nasty future. And so that you can fulfill your task in this regard as well, I will continue to teach you good penmanship, as I have already done through impulse guidance since you were four years old without your conscious knowledge, whereby you already learned to write without the knowledge of your parents before you were integrated into the school. And as I have done this since 1944 also with your consent and knowledge, I will do it also henceforth. But you must continue to learn a great deal until 1953, in spite of the extensive knowledge you have acquired so far, and you must direct your interests to a great many things that you must know and understand. So you must be interested basically and exceptionally for your age in very many things, that in the future in your life, as well as in the world in all kinds of respects much more will happen than what I have explained to you so far with all the different explanations and predictions. Actually, everything must interest you, especially because you must learn to deal with everything through your thoughts and feelings and to prepare yourself for it in order to strengthen your psyche and to be able to cope with everything in every respect. To know coming events in advance, as I have already made you understand in other explanations, means in any case - and whatever it will be - a very heavy burden claiming the consciousness and the psyche, and especially when it is about events which on the one hand are related to you personally or on the other hand are directed against your personal attitude, honor, morals, behavior and dignity concerning the value of life, the well-being of people, all life forms and nature. And since according to your attitude, your character, your morals and the ways of your thoughts, feelings and your forms of your behavior, which are directed according to the laws of creation and the commandments of creation, everything deviant is against you, it is necessary that I continue to teach you as before how you can maintain and preserve the healthy state of your consciousness and your psyche through your thoughts and feelings. But you have to use your own mind and your own reason in this respect to follow the way given to you personally in this respect and to reach your goal. This is of significant necessity, because without this inevitable learning to take care of your thoughts and feelings in a correct and positive way, so that your psyche remains balanced and healthy, you would not be able to cope with many explanations and predictions, because they would burden you so badly that you would break down from them, if they come true in the future time. Through learning, however, you will become powerful in your thoughts and feelings, learn to control them and also be able to keep your state of consciousness and psyche under control, even when you are hit by great suffering, pain and deep sorrow, which you will encounter very often in your life and thus will not spare you. So it is of pretended necessity that you already now and also in the future deal with it and also prepare yourself for the future, and especially to form and control your thoughts and feelings in such a way that you never fall into trouble with your consciousness and psyche. So I will also instruct and teach you in a strict way according to our and the earthly knowledge superior psychology, which will be of very great importance for you as well as for yourself, in order to always behave in a psychologically correct way concerning yourself. But it will also be necessary for you to be able to recognize and judge the psychic impulses of people correctly, so that on the one hand you can protect yourself from harm, but on the other hand you can also help them in life and behavior as well as in psychic recovery, if there is a need for it. Thus, through this instruction and teaching you will gain much more knowledge than any earthly study of psychology would be able to offer you. Now, however, with regard to everything that will be related to yourself and will also happen in the world - which I have already told you in a predictive explanatory way in other conversations and will also continue to do so - you have to adjust your thoughts, feelings, your consciousness and your psyche in such a way.

You must be able to control yourself so that you can cope with and get through even very bad things without damage, because this is what your life itself, as well as your task and mission, will demand of you. And it will often be the case and necessary in your life that you have a strong consciousness, strong controlled thoughts and feelings and a strong, healthy psyche. A lot will happen because you will live an adventurous and not harmless life far away from your home before you return home after many years, settle down and start your work and mission, which will not be easy, however, but with a lot of work and vicious attacks against your life and with adversities against you and your mission efforts. Outwardly, however, and I must say this again and demand it of you, you must keep silence about everything to all people, because it would be dangerous, on the one hand, to speak openly about what I have taught you and continue to teach you as explanations and predictions, because foreknowledge of the facts would cause fear and horror in people. So you can speak openly about everything which does not concern such facts of the silence must, which show things about which I already had to impose silence on you and also have to do this concerning further information which I will still announce to you during the next seven years. Also with power-obsessed rulers of every importance, with racist organizations, religionists of all shades, with priests, pastors and theologians, with sects and scientists as well as with criminals, criminals and adversaries of every kind, actions and deeds could be conjured up by which you and your task and mission would be endangered by severe damage. Everything could also lead to worldwide man-made catastrophes. Nevertheless, it cannot be avoided that you will be insulted by religionists, especially by blind, fanatical and self-opinionated priests, pastors and theologians as well as know-it-alls, envious people, sect members and all kinds of other adversaries of lies, fraud, charlatany and swindling, as well as that attempts will be made to silence you in the truest sense of the word by attacks on your life, in order to damage your mission, to present it as untrustworthy and to destroy it. It will also be unavoidable that state security services will monitor you and malicious people will denounce you to authorities, secret services and police through lies and deception, but you should not pay attention to this, but simply lead your important work and mission undeterred, which will also bring success.

**Eduard** What you say and you have also explained and taught me the last years, that I can and could understand well. To everything I have always made myself also many thoughts, whereby some stimulated me also in the way thoughtfully what will result finally from everything. This is e.g. so with the fast growing overpopulation which you have already addressed several times and said to it that from it also world-wide terror will develop and which comes just only by many-like effects of the overpopulation about. You have also instructed me that I should write down your explanations from 1951 and spread them as warnings far and wide, but I think that I still have to know a lot more for it, as for example also what will be the origin of everything what you say that it will come in the coming times. I should also know more because of the further increase in overpopulation and everything that will result from it.

**Sfath** You are right and really think about everything, which is why you also ask about the origin of the coming events. The overpopulation, yes, which evils will result from it in the future, about that I will have to explain to you still much. Now, however, I want to explain first what will be the beginning or just origin of very many in the next five and a half decades at hopeless things, factors and bad events which will happen also far into the 3rd millennium. By the guilt of the political, military, economic, scientific, world-dominion-addicted and criminal machinations of the USA already next year worldwide many inhuman evils will arise and much disaster will take its beginning. And by the criminal doing of the USA also terrorism arises in many places, how however by food companies and as a result of earth resources robbery also many kinds of nature destructions and catastrophes destroy the bases of life of millions of humans. For the most part, all evil occurrences, such as wars, bloody uprisings, civil wars, insidious secret service operations, revolutions, government overthrows, mass murders and destructions, are brought about by the USA. And America will continue to bring much evil, hardship and misery, as well as thousands of deaths upon the earth and all mankind, for from there a religious, delusional sectarianism will also spread throughout the world, claiming thousands of lives. From now on new power-controlled political, military and secret service machinations of America reaching far into the future of the 3rd millennium will lead to wars, revolutions and terrorism all around the world, because again a nuclear program and nuclear bomb tests will be started and also other states will be animated to the same actions, which will then be continued in the coming times far into the 3rd millennium, which will force very many people to flee and will cause

will let a lot of radioactive radiation. From the new atomic program of the USA will develop, just what results from this worldwide, a worldwide atomic espionage. In the course of time, as a result of espionage, the Soviet Union and China will also come into the possession of documents for the atomic bomb technology and will likewise carry out many tests, contaminate many areas and waters with atomic radiation and come into the possession of the bombs. However, the espionage to get possession of the plans and documents etc. concerning the atomic bomb technology will be carried out also by various other countries, consequently in the coming time and still for a considerable time before the beginning of the 3rd millennium in several states other than the USA, China and the Soviet Union - which will be called Russia again from the 1990s - nuclear bombs will be produced and large stockpiles of nuclear weapons will be created. The technical development of nuclear technology, which is called nuclear weapons technology, has been going on since 1940 and is based on it - about which I will instruct and inform you further later. Thereby the danger of a military armament of the world power states is spreading, especially of the USA and the Soviet Union, which are joined by China, England, France and Canada, as well as various other countries, even if they will not be as powerful as the USA and the Soviet Union. And since the western states, especially Europe and the USA, have always been hostile to the Russian Empire, the Russian Empire, the Russian Tsarist Empire, this will lead to an arms race between all states with more and more modern weapons. Especially atomic bombs, hydrogen bombs resp. plutonium implosion bombs etc. will be created and tested, which create enormous energy for an explosion from nuclear reactions by nuclear fission or nuclear fusion, whereby in this relation by nuclear research a great variety of different variants will be produced. And for deterrence and threat many thousands of such bombs and other nuclear weapons will be created and stored in the future by the world power states, especially by the USA and the Soviet Union, and in this way a dangerous condition will be created, which will be under an evil sign of a threatening and world-wide and world-destroying nuclear war until close to the 3rd millennium. And it will be many times in the 1970s and 1980s that nuclear wars will threaten to break out due to misunderstandings; once it will be due to a false report of a Soviet spy satellite recording solar reflections on clouds, which will then be wrongly judged as the launch of a nuclear missile of the USA against the USSR and will become the imminent danger of a Soviet nuclear strike. As a result of the nuclear arms race, even before and even after that, further dangerous situations will appear again and again due to misunderstandings of actions, because military false alarms have already been given since the beginning of the nuclear age, which already started in 1940. And such false alarms will occur again and again because there is extensive faultiness in the defense concepts of the American and Soviet military blocs and in the missile early warning systems, and will constantly evoke threats of nuclear war. Particularly great dangers will be unleashed in the coming decades, when increased tensions between the USA and the USSR will be provoked by the fear, stupidity and irrationality of the power-mongers and their advisors, whereby, however, as has been the case since time immemorial, the dangerous aggressions will emanate from the United States of America, while the Soviet Union will behave with restraint but suspicion. This will be especially true if, in the late 1970s and 1980s, a lax policy of détente collapses, resulting in a new mutual distrust between the two world powers, which will be driven to a high and dangerous climax and will lead to the further and insane buildup of the nuclear arsenal, which could destroy the entire surface of the earth and all life. And it will be that in many cases the world will only narrowly escape a nuclear war, though it will not change the fact that in 1949 the so-called North Atlantic Pact will be established, based on the United Nations, to create a global system of collective security. The North Atlantic Treaty then owes its origin to the signing of the 'Charter of the United Nations' in San Francisco on June 26 last year, which is considered as the 'Constitution of the Community of States' and with which a Western European alliance and thus global system of collective security was to be created. Nevertheless, the end of the world war, which ended last year, did not create a phase of worldwide peace, but a state of 'Cold War', which will become a determining factor of future political, military and economic development and will threaten to degenerate into a nuclear war in some cases. As a result of the inability of the USA and the Soviet Union - which as great powers have been hostile to each other for a long time, and indeed as the only ones of all the states involved in the last world war - to act together, they are pursuing different military and political interests. In doing so, American demands were and are usually made on the USSR, which are only advantageous for the USA. Thus, both countries, as previous allies in the world war triggered by Hitler and the Nazi empire, will continue to create conflicts between themselves that will lead to antagonisms

between the USA and the Soviet Union, with the enmity and these antagonisms becoming blatant and open since the end of the World War. And this enmity will not remain with the USA and the USSR, but will also reach far into the world into many other countries and cause uprisings, wars, revolutions, discord and terrorism. It will also be that in many cases the military and state policy and the secret services of the USA will interfere in foreign affairs and problems, provoke and carry out underhanded government overthrows and bear a great deal of the blame for everything. And since the political power of the USA continues to tend towards absolute world domination, the American secret services and military power will also carry out actions, wars as well as veiled terrorist acts and government infiltrations directly in foreign countries and keep them under control in an occupation-like manner. All this will lead in all countries, where the military and politics as well as economy of the USA nestle, to disadvantageous political, military and economic, as well as many other bad consequences and everything will lead to uprisings, anarchism, to riots, civil wars, xenophobia and racial hatred as well as to anarchistic, deadly and criminal political groups, which will murderously indulge in their delusion. But there will also arise world-spanning terrorist organizations whose fanatical founders will be trained by the military etc. of the USA to become fighters who will then gather like-minded people around them and carry bloody religious-political fights out into the whole world and mercilessly and mercilessly torture and murder countless innocent people of other faiths in a bestial way. However, as I already explained in earlier declarations, in the coming times and far into the 3rd millennium, intelligence, military, criminal, warlike and even terrorist, subversive, criminal, political and economic machinations by the USA in foreign countries will cause many state systems to collapse and lead to civil wars and terrorist wars, whereby large refugee streams and refugee-like migrations of peoples will arise. So a very unpleasant and far-reaching terrorism will develop, as well as an unstoppable refugee system into the far future. In the course of time this will result in extensive refugee streams, which will spread over the whole earth and in 70 years will comprise about 70 million refugees, whereby in the second decade of the new resp. 3rd millennium an irresponsible naive-sick ruler in Germany will even more contribute everything to the fact that millions of refugees from politically and economically underdeveloped as well as insecure war-burdened and terrorism-addicted countries will stream to Europe. Many of them will be real refugees, endangered of life only by their name, because a great number of others will flee from their homeland only for economic, criminal and terrorist reasons, in order to profit in the countries of refuge and to act criminally. But there will also be people who have degenerated into religious sectarian mania, who pretend to be refugees in need in order to reach countries of refuge as terrorists, where other religions and sects prevail, in order to spread death, disaster and destruction there, especially among the innocent people of other faiths who are not involved in war and terror. However, the majority of the rulers and others responsible for the refugee immigrations will be largely incapable of facing the emergence of the problems in a logical and reasonable way, because they will make wrong and inadequate decisions and will raise and adopt measures that will be useless and will let the evils continue. The result will be that the problems and difficulties regarding the handling of the masses of refugees and what should be done about them will be exacerbated and the necessary solutions will be made more difficult. The result is that immigrant criminal, terrorist and criminal elements are paved the way for unlawful actions and deeds and thus also for murder, mass murder and destruction. Therefore, also more and more extensive problems and degenerations will arise, which will be caused by criminality and crimes as a result of the refugee disaster and the manifold political, paramilitary, racist as well as religious and sectarian terrorism still towards the end of the 2nd millennium and at the beginning of the 3rd millennium and far beyond in Europe and also worldwide. And it will be that then only by rigorous measures the refugee problems could be solved, whereby however by the governments and otherwise responsible ones the necessary measures and steps for it are not undertaken and consequently neither correct decisions nor precautions are made, nor correct actions are accomplished. And this will be so, because they neither see the reality, nor are able to judge everything correctly, consequently the problems are not solved, but still deepen and multiply. By all responsible persons it will not be seen what will result from everything, because they will not be able to it intellectually and rationally, what will be because of the fact that a part of the governing and otherwise their responsibility reviling will think and act only for themselves and everything else and with it also the weal and woe of the people will be indifferent to them. Therefore, it will also be - and especially in Europe - that all security organizations of the states affected by the refugee system will be extremely naive,

will be careless and ignorant and will not recognize the real state of affairs for a long time. So they will miss the realization that with the refugee flows a very large number of criminal and criminal elements as well as politically and religiously radicalized and sect-controlled murder- and destruction-commissioned terrorists are smuggled into Europe and into otherwise all countries of refuge, where they spread then in the course of the time in single or group perpetration death, mischief, ruin and destruction. On the other hand, the other part will be so out of touch with life and reality, clueless and naive as well as mimosa-like, weak, feeble, effeminate, fragile, squeamish and in thoughts, feelings and with regard to humanity so stupid and sickly that they will play down everything and even more add to it that all evils will continue to rise and all problems will increase even more. And if the politicians and other responsible persons - who are often controlled by the economy - are asked about complex and important questions, then they will mostly give only short answers, because they are not able to think deeply, because their intellectual performance usually does not correspond to any high quality and also hardly requires a high intelligence. In this regard I have already explained to you several times in the last two years, to which now it is to be explained, however, also that the rapidly increasing overpopulation will also bring forth activities which will be politically as well as religiously and sectarian-terroristically caused and will cause worldwide malicious, murderous and destructive consequences. Due to the unstoppably increasing overpopulation, very quickly more and more religion- and sect-believing as well as murderous degenerating people will appear, who will fall prey to a completely degenerated, blind, fanatical and blood- and death-demanding religious delusion of faith and sectarianism. And in this regard, especially in Asia, the Near East, as well as in Arabia and Africa, but also in other regions, large religion-related murderous and organized sects will form, act worldwide spreading death and fear. And this will be inevitable and will happen, as looking into the future clearly shows and the beginning signs of it are already appearing at the present time. The fanatical religious and sectarian beliefs represent a dangerous return of religions and sects in the coming decades and in the 3rd millennium, through which deadly faith-based conflicts, torture, violence, morality, wars, terrorism, oppression, rape and destruction will be unleashed. In this regard, the truth shows that the role of religions and sects is ambivalent, that is, ambiguous and ambivalent, causing serious conflicts, and fanatical faith factors will play a major role in many vicious degenerations and effects. Among the believers of the different main religions and their almost innumerable sects, violence and hatred have often prevailed since ancient times, although all religions and their sects preach love and peace, which, however, corresponds to nothing else than a phrase of veiling; in such a way that every religion and sect, through their dogmas and beliefs, can cast a spell on and exploit all believers of the world. Moreover, this is to conceal from the believers that in reality the religions and sects are hostile to each other and that each one of them wants to drive away the believers of the other faiths. This is exactly what will happen in the coming new times, even before the millennium, through the planning and implementation of cross-denominational devotions, meetings of believers, prayer and discussion groups, congregational celebrations and 'services', etc. But also bloody and deadly religious and sectarian machinations will increase, as will be the case in the coming month of August in human-rich India, when bloody clashes will be caused in the city of Calcutta as a result of government disputes between Islam and Hindu believers, claiming more than 2300 lives. And this will continue far into the 3rd millennium, because, as always, the believers of one religion and its sects will be hostile against the other religions and sects; the Christians and Jews against the Muslims, and vice versa, the Buddhists against Hindu believers, and vice versa, and all other religion and sect believers against the other religion and sect believers. This is how the future will be in this regard, and it will bring torture and hundreds of thousands of times of violence, murder, death, strife, rape and destruction in many places of the world in the 21st century as well. And this will also come about through the hatred of large parts of the populations in those countries where refugee streams immigrate and the refugees are of a different faith than the natives. The consequences of this will be xenophobia, faith hatred, religious and sectarian hatred, and racial hatred, spreading over entire countries and causing arson, violence, murder and manslaughter, inhumane acts and deeds, and great destruction. And in many countries, especially in Europe and the USA, xenophobic and racial hate groups and even large xenophobic and racial hate organizations will form and spread their hate behavior in the respective national populations, just as everything will be spread to other countries and to other populations, where further similar groups and organizations will form, which will then join together with others across borders. The xenophobia and racial hatred will very quickly turn into a religious hatred and

Religious hatred will develop, a hatred against people of other faiths, as well as against those who think differently, who will not associate themselves with the hatred of foreigners and races and religion and will distance themselves from it. So it will come that those who are obsessed with hate and those who think differently and distance themselves from hate - who also form groups and organizations and oppose any radical machinations regarding hostility, compassionlessness, ruthlessness, inhumanity and unforgiveness etc. towards those who think differently and believe differently as well as refugees - will be more and more hostile towards each other and fight each other until bloody confrontations. And finally it will be inevitable that also the governments and the security organs of the countries will be drawn into these machinations, whereby from everything civil war-like conditions or even actual civil uprisings can develop. Many of those who indulge in xenophobia, racial and religious mania will fall into an uncontrollable illusion of power and, through anarchism, torture, violence and murder in their xenophobia and racism, into a compulsive idea of being the absolute master over the life and death of their fellow human beings. Following this, those obsessed with it will gather large like-minded followers around them, who will take up weapons and all kinds of other deadly means in order to carry out assassinations and acts of terror worldwide and to massacre, murder and destroy many people. The great mass of the overpopulation will bring with it that inevitable unemployment and ever greater poverty will prevail, whereby innumerable people will live without employment and idly in the days and in the time, have no regulated future and also see none and will become tired of their hopeless condition. This will undoubtedly lead to the fact that many mostly young and younger people in their hopelessness will listen to criminal political seducers and sectarian hate preachers and terrorists, as well as other criminal propagandists and will become slaves to them. Everything will happen in places of religion, in families and through public organs of many kinds and also with new, modern techniques, whereby individuals or whole groups will be indoctrinated by advertisers, whose suggestive recruitment and hate speeches for violence, war and terror will bear fruit and lead to murderous assassinations, suicide bombings and other bestial murders as well as to immense destruction. So many women and men will go to wars and terror and spread unspeakable suffering, misery, pain, disaster, death, ruin and destruction. And the more extensive the overpopulation becomes, the more mainly young and younger people will see no chances for their future and will be in bondage to the power-obsessed people, cult fanatics and terrorist preachers screaming madly for sectarianism, assassinations, torture, war, murder, suicide, death, ruin, rape and destruction and follow their diatribes and advertisements of lies. In this way, in the future, everything related to this will spread more and more viciously and will expand into murderous terrorist organizations, which on the one hand will be strongly politically power-driven, but on the other hand will be especially sectarian, background-interest-driven. And in a sectarian manner, several particularly large terrorist organizations will form, whose murderous and destructive incessancy will claim many thousands of lives, especially in various Islamic countries, as well as in the USA, in Asia and in Europe. These murderous sectarian organizations, as a result of misinterpretation and misunderstanding of their religion, will spread death and destruction in many countries worldwide without mercy, mercy, humanity and forbearance, and even bring whole or large parts of countries under their control and terrorize them. But also many power-obsessed dictators, rulers and military of many countries will cause death and destruction, whereby in the future multiple changes of the forms of government will take place, which will be accompanied by bloody and murderous uprisings, revolutions and government overthrows. With acts of war, all states will be preceded by the USA, which, as since time immemorial, will interfere politically, militarily and secretly around the world in a criminal and criminal form in foreign national affairs and strive for world control and world domination. But also supposedly popular authorities and courts will act with blood, torture and death by judging people and handing them over to the death penalty, as it will be the case e.g. also tomorrow Monday in Hamburg, in Germany, where eleven people will be sentenced to death because they made themselves guilty as concentration camp guards. And these death sentences will be followed by many more of the same kind in Germany by Allied military courts, not only as a result of war crimes and murder, but also for many other reasons of crime. Also in many other countries around the world people are handed over to death - supported and condemned by legality - because no humanity and no justice prevail, but only dictatorial, bloodthirsty legislations, whereby the freedom and peace of the people are limited or even completely missing. And what the USA is doing in this respect, too, among many other things, does not reach the public, as well as the fact that since the end of the World War last year they have also been taking advantage of Nazi criminals and Nazi war criminals, who worked in the Nazi empire as scientists of various disciplines. Many of these criminals are being held accountable by the U.S.

Military as specialists for new weapon technologies of all kinds and especially also for the rocket construction development transported to the USA and used there in the development of all kinds of secret weapon and rocket as well as airplane systems. So these war criminal elements - of which already more than 1500 are specialists and scientists with Nazi background, whose still others follow, who all must help the USA by their inventions and developments to the largest world power position - were not and are not called to account, but are put into special positions, equipped with special rights, as they are also granted state protection. Also irresponsible crimes against the whole earthly mankind, the planet, the atmosphere, the climate, the land and the waters as well as the nature and the fauna and flora will appear again by power-obsessed and irresponsible rulers, military and scientists etc.. The United States of America will be in the first place in this respect, namely in the first place concerning the development and use of nuclear weapons. Researchers and scientists of the Nazi Empire have been trying to develop such weapon systems since 1938 and during the World War that ended last year, but fortunately no usable nuclear weapon was created, otherwise the Earth and mankind would have been plunged into an atomic catastrophe. Nevertheless, through the fault of the USA and those countries which will emulate America, a catastrophe will spread worldwide, for which, however, a special explanation is necessary, which I will now give you, whereby a Nazi war criminal by the name of Kammler and his actions are of special importance to mention. Kammler is a conscienceless and very precise, logical and extremely calculating thinker, learned architect and engineer, and it was clear to him already at the beginning of the war, which started in 1939, that this war could not be won and that a victory against the world powers was totally hopeless, because Hitler and his subordinates had underestimated by far the world powers USA and Soviet Union and those, who allied themselves with them, concerning the total weapons and armed forces potential. From the very beginning, Kammler saw through everything and also knew that he could use a great chance to live out his mania for power by ruthlessly cooperating with the Nazi regime, whereby he also already entertained the thought of defecting to the enemy with important research material, etc., if the war situation became dangerous for him. Consequently, he inserted himself calculatingly into everything, but only for the sake of his exercise of power and for the sake of working his way up to a powerful Nazi greatness and thus to one of the most powerful men of the Nazi regime. So he was already from the beginning in a way a traitor to Hitler and to the Third Reich, because according to his sense he did not work for them, but only for himself and his exercise of power. Kammler, however, was severely personality disturbed, but he knew how to routinely cover up and conceal this from other people through his acting. This made it possible for him to quickly rise to the position of SS-Obergruppenführer and General of the Waffen-SS of the Nazi dictatorship and to become an important Nazi figure as a power-obsessed and also cold-blooded mass murderer, conscienceless Jew-hater and racist beyond compare, as well as a man obsessed with hatred against people in general. He also became responsible for the jet aircraft program, as well as for the very numerous underground armament factories, the production of the V1 wing bombs and the V2 ballistic missiles. But when the end of the war came, for the sake of his personal safety, he put aside all the power he had exercised, seized secret and important research records and plans with the help of two confidants who were working on the nuclear weapons research program. These related to a nuclear fission project and uranium project, which, after the discovery of nuclear fission in Germany in 1938, was pursued until the end of the World War, as Hitler had ordered. The latter personally gave the order to develop nuclear fission into a technically usable and widely devastating and all-destroying nuclear weapon. The extremely secret researches in this field were therefore advanced very far and were about 15 years ahead of the similar researches and developments of the USA, consequently the scientists also had some successes, which, however, did not bring any successes until the end of the war in the sense that they could have produced a functioning atomic bomb or other nuclear weapon. Actual nuclear weapon tests were thus denied to the Nazi dictatorship, which is why only two small explosion tests could be carried out, but these could only be rated with minimal success and were therefore not of any significant importance. It was also not possible to produce a nuclear chain reaction in a reactor, because despite extensive construction efforts it was not possible to realize appropriate reactors. Nevertheless, the research was very advanced, and Kammler, with the help of his two confidants, obtained valuable records and plans, along with nearly 68 kilograms of weapons-grade uranium. Provided with all the necessary documents and the uranium, he managed to turn himself in to the U.S. intelligence services and hand everything over to them, hoping to be welcomed, protected and not brought before a war tribunal. In fact, contrary to his high level of intelligence and cunning, he was naive in this respect and thought that as a bearer of the secret research papers, results, plans and uranium, he would be appreciated as a valuable defector, brought to the USA and protected by the Americans.

But these knew that he was one of those worst Nazi war criminals who were accused of mass murders. Consequently, he was arrested when he turned himself in to the intelligence services, had all his stolen secret records and plans and uranium taken away from him, and was brought to the USA as a prisoner in a jail. The Americans knew about the nuclear fission researches of the Nazi empire and wanted - even before the Soviet Union - to get hold of the knowledge gained in this respect as well as they wanted to secure the knowledge of the German armament knowledge and the development lead in the jet airplane and rocket technology altogether, about whose advanced techniques they were very shocked. So they hunted for plans, records, scientists and researchers, and parts of entire products to secure Nazi know-how before it could all fall into the hands of the Soviet Union. For this they also needed Kammler, who was extremely welcome to them with his knowledge and his records and plans as well as the uranium, but not according to his sense, because after his arrest in the month of May last year he was brought as a prisoner to the USA and since then he is held in a high security wing of a prison, where he is interrogated since then again and again during hours, but this finally becomes too much for him and he ends his life in the course of the next year by suicide, as I have seen in a preview. But that the USA have drawn great benefit from the research records, results, findings and plans received from Kammler and the weapons-grade uranium for their own researches and plans etc., that is absolutely and flawlessly certain. Only by the more advanced knowledge of the Nazi nuclear fission research, which was passed to them by Kammler, the test, which was carried out on July 16 last year on the area of the White Sands Missile Range near the city of Alamogordo, New Mexico, by the USA under the name Trinity Test resp.

The first atomic bomb test, which was carried out at the 'Trinity', will take place and then the two atomic bombs, which were dropped on Hiroshima as well as Nagasaki, will be built. And these irresponsible and criminal monstrosities on the whole mankind, the planet, the atmosphere, nature, fauna and flora, on all land and all waters as well as on the climate, finds still this year continuations, because the criminal atomic tests will continue. So it will not remain with the atomic bombing of the Japanese cities Hiroshima on August 6 and Nagasaki on August 9 and their destruction last year, which caused several hundreds of thousands of human lives and innumerable wounded and atomically contaminated people. And all in it criminally involved and advocating irresponsible and in their mind dehumanized elements thought and still think in their delusion to be in the right and in their criminal and inhuman way to have acted right and to have to act also further in such a way. So, in the coming month of July, two new nuclear weapons tests will be carried out by the USA, namely on Bikini Atoll. Already by the first atomic bomb test and the bomb drops a crime was committed against the whole mankind, and with the new tests a world-wide new crime against the whole earthly mankind will take place, which will affect very viciously also the whole nature, the climate and the whole plant world and all living beings on land and water and will create innumerable mutations as well as for thousands of years by atomic contamination uninhabitable areas. This besides the fact that innumerable people will fall ill and die by radioactive contamination, which will be used in this way also by the state and criminally, in order to murder for the policy and secret services etc. people becoming disagreeable. Especially by the USA many such crimes are caused and driven on, as also by other states and by criminal organizations, as also in purely private way, as this is already since ancient times regarding every kind of crime the case. And the crimes against the whole earthly mankind are further stirred up by the United States of America, as these have already happened since their origin and have led to the partial extermination of the Indians and have claimed hundreds of thousands of human lives worldwide, as just last year by the atomic bombs, on August 6 on Hiroshima and on August 9 on Nagasaki, whereby these two cities were completely destroyed. By this monstrous crime of the USA not only hundreds of thousands of human lives were murdered, because it demanded also very many wounded and ill people, who were radiated by the atomic failure. In this respect alone, America is a disgrace for the nation USA and for the whole earthly mankind. Now, nuclear bomb tests will be carried out again by the USA, already in the coming month of July on Bikini Atoll, and these criminal tests will be followed by further nuclear tests by various other states in the next eight decades. From my forecasts, which I have carried out up to the year 2020, I know that more than 2000 further nuclear bomb tests will be ordered and carried out by eight countries by their irresponsible power-obsessed state authorities, their advisers, other people in power, researchers and scientists from the first criminal nuclear test of the USA on July 16 last year up to the year 2020. Altogether also these will have extremely disadvantageous and destructive effects on the whole planet, namely up to its internal structures, what also over many

decades and far into the 3rd millennium will lead to very many lasting and adverse effects of the earth tectonics and thus to many bad earthquakes and volcanic eruptions. Also, all the structures of nature and the climate will be damaged and adversely changed by these nuclear tests in such a way that everything will get out of control and cannot be regenerated. But everything will become even worse, because the greed for power of the irresponsible state powers, their advisers, supporters, fellow travelers, otherwise power-obsessed, the military and scientists as well as the populations approving everything will know no more borders from now on, why by them still more deadly and many times more destructive bombs and weapon systems, as also rockets and all kinds of other weapons are demanded and developed. So, especially by the research and power mania of the people, new misery, death, downfall, destruction and highest possible destruction bringing bomb, rocket and weapon systems of technical and chemical kind are created. Delusional thoughts also play a part in this, because as a result of stupid, fearful, hostile, pathological enemy attack imaginations possible imagined aggressions and attacks are expected. This will lead to a senseless, pathologically stupid and irresponsible, unpredictable armament with nuclear resp. nuclear weapons of all kinds by the hostile nuclear world powers and thus to the danger of a nuclear war, which would destroy and annihilate all living things on earth and turn the planet into a dead desert. The majority of all present and future state powers, other state powers of all kinds, their advisers, supporters from the peoples and the other powers, the military and scientists, who play with fire in this regard, are so irresponsible, heedless, thoughtless, conscienceless, indifferent, careless, oblivious, careless, mindless, reckless, unscrupulous and also full of fear and cowardice that they are absolutely unpredictable and will be so also in the far future. So they will order and advocate new nuclear tests and demand even more destructive bombs with tremendously more destructive potential than so-called implosion or uranium bombs are now. Consequently, the next crime will not fail to emerge from nuclear technology, for it will be a much more powerful hydrogen bomb, thousands of times superior to the uranium bomb, that will be created next. But there will be other nuclear weapons, as well as many other forms that will be developed in the future, such as a so-called fusion bomb and neutron bombs, as well as other neutron weapons and so on. Everything will cause the flight of many people, as it was already the case last year during and after the world war with numerous waves of flight, which will be followed by many more until far future. And the time of the atomic happening on the Bikini Atoll will be the actual time of the origin of the future world-wide escape waves, which will extend for many reasons, like drought, hunger, wars, need and terror etc., very far into the 3rd millennium and will cover in the end 250000 000 to 350 000 000 humans. War-free, politically, socially and economically well-situated states will be flooded with refugees in the coming times, especially the whole of Europe and the North American continent. I have already explained this to you several times during the last two years, as well as that in the future from all countries with undeniably and undoubtedly life-threatened refugees also work-shy people, swindlers, gangsters, murderers, capital offenders, criminals, felons, all kinds of other criminals and evildoers, criminals and terrorists will come along, who of course will not be recognized by the authorities, border, police and security organs of the countries of refuge, let in and recognized as refugees in need of help. And the number of these refugees of different character will constantly increase from year to year from today's time and from the 3rd millennium onwards the whole world refugee problem will expand very fast, especially in whole Europe - which will be a union dictatorship at that time except Switzerland - that the refugee problem will be hardly to be mastered then. As a result of need and misery in Africa, war and terrorism in Asia, in the Near East and Orient, with refugee waves of refugees actually threatening their lives, also many terrorists, work-shy, only wealth-seeking elements, many kinds of criminals and criminals will flood the whole of Europe. And the real origin of these coming refugee streams and the migrations of peoples will be on the one hand the overpopulation inexorably increasing in its number, by which unemployment, uprisings, lack of existence, hunger, diseases, wars, hatred of foreigners and races as well as religion, terrorism, epidemics, water shortage and many other factors will become unsolvable problems. On the other hand, however, also the world power desire of the USA will contribute to it, by which serious criminal, criminal, political, secret service, military and economic interferences into the different structures of the Asian and other eastern as well as Arab and oriental states will take place and from it tremendously much disaster, suffering, need, misery as well as discord and terrorism will be created. Thereby, in the future, many people will become enemies among themselves, as well as more and more to the inability to live and indifference in every way, from which also work-shyness, fraud and thievery will arise and many criminals will become burglars, murderers and robbers. Others again, as from time immemorial, are again driven by boundless hatred against acquaintances, friends, own family and friends.

The race delusion built up in the Nazi empire will continue in an extended way and will be entered far into the third millennium. The race delusion built up in the Nazi empire will continue in a widening way and will be entered far into the 3rd millennium, whereby worldwide very many innocent people will continue to be murdered by the most different race delusion movements. Many people will become in the coming decades and also far into the 3rd millennium degenerated blind fanatic believers and followers of religions and sects, bloodthirsty, dehumanized and murdering family maniacs, as well as murder mania believers of world-wide acting terror organizations. And from these will also emerge many murderers, especially from the 1990s and well into the 3rd millennium, who as individuals or in groups will carry out assassinations, acts of murder as well as suicide bombings and in this way murder masses of uninvolved innocent people - women, children, youths and men of all ages. In this way, terrorism will spread around the world and bring many deaths upon uninvolved and innocent people, which will briefly affect many of the earthly humanity in their thoughts and feelings, but will not really make them think, as it has always been so. Even most horrible, murderous and most catastrophic events and occurrences touch, seize and stir the people in their thoughts and feelings as since ever only for a short time, after which everything is quickly forgotten again without an actual, profound stirring and shaking in their senses coming about, which could lead to do something at least tentatively to counteract the evils. And this also refers to the fact that people live indifferently in the day and in the time and do not think seriously about life, all happenings, everything that exists as well as all vitalities. On the other hand, it also refers to the fact that in the coming times until far into the 3rd millennium, as a result of the rapid passing away and passing away of thoughts and feelings regarding bad events and facts, such as catastrophic human events, deadly and destructive events and degenerating machinations as a result of overpopulation, ever worse consequences will result. And due to the unstoppable increase of overpopulation, vicious, dramatic and mutating changes and death and destruction factors will occur in the future on the planet, the oceans and all continental waters, as well as on the land and all forms of life. Also the health ability and the behaviors of the people will degenerate disease- and harm-bringing and will lead to many and many kinds of deaths, as also the climate will be affected by effects of irresponsible machinations arising from the overpopulation and will be changed catastrophically. And with the whole fauna and flora, with the planet itself as well as with regard to all things of life and the existence of all things it results that finally the destructive effects in every respect can no longer be controlled, can no longer be reversed and can no longer be stopped and therefore the whole earthly existence is questioned. And if the mankind of the earth is not brought to stop the growth of the degenerating overpopulation in order to avoid in this way further disaster and to reduce the already existing one, then the last catastrophe of doom will not be avoidable. If now, however, catastrophic events appear, like murder and mass murder acts by single persons or by groups, which are terroristically caused or by depressive, jealous, hateful, criminal, at the psyche or in the consciousness ill people, then also many rulers and other responsible persons of all states will be affected by it. But their majority will - as since time immemorial - only dishonest, unrelated and hypocritical condolences and other big words from themselves, if by individual people murder acts or by whole groups murder actions are carried out. It will not matter whether the deeds are carried out by depressive or otherwise in the consciousness or in the psyche ill perpetrators or perpetrators, confused, hate-stressed, racists or terrorists, because as a rule - as since time immemorial - the condolences and sympathies of the rulers and other responsible persons will be only lies, deception and sham and foreign to sincerity and honest compassion. Therefore, the appearance and presence of the rulers, state powers and responsible persons at bad places of events will be of use only for them and for the preservation of their office, as well as their words and promises, which will be only deceit, trickery, lie, deception and empty words for the suffering people, as this has been held so since time immemorial. And as the majority of the state authorities and all the other responsible persons will make only empty promises and lead stupid speeches with the many murder events appearing by single perpetrators or by groups of terrorist kind etc., this will be also in many other relations. So it will happen in the same way in the coming decades and far into the 3rd millennium, if the natural catastrophes, which are already approaching at the present time, will arise, whose origin will lead back to the nature as well as planet and climate destroying machinations of the overpopulation. Everything will be irreparable and moreover will claim innumerable human lives, will cause enormous destructions and finally will lead to the fact that

Distress, misery, diseases, epidemics, lack of space, food and water will spread over the whole earth and mankind in such a way that nothing can be opposed to everything. And when this time comes, if the earthly mankind does not return to the way of the healthy understanding and the reason in foreseeable and useful period, then there will be no more help. This also means that if the growth of overpopulation is not stopped and not rigorously reduced by a birth control and brought to a normal and planetary level in the foreseeable future, if a worldwide state of peace, comprehensive freedom and a comprehensive security for the planet and its nature as well as for all life is not finally created, then an end of the advanced civilizations of earthly mankind will be inevitable. It will take some time until then, but it will be inevitable, if the overpopulation and everything else endangering the entire earthly life of the planet and all living beings is not stopped. Unfortunately, however, this will not be the case in the coming decades and also far into the 3rd millennium, and not even when you will compose your letters and send them to all governments, media and important organizations. But if you do your work, little by little people will come together, group themselves and learn your teaching worldwide, try to follow it, learn to live it and start to spread it, from which the hope will arise that in 800 to 900 years very many people will slowly make an effort to consciously use their mind and reason and turn to the teaching that you will henceforth write down on a large scale, spread it and teach it to the people. But you must know that this will be an exceptionally heavy and very difficult task and work, which you have to fulfill in a world that is very hostile to you concerning your mission, because in this world people are misled by religions and sects, are unfree, enslaved and enslaved, but also addicted to know-it-alls, habits, self-importance, vices and addictions as well as vanity, megalomania and delusion in many respects etc.. And as it was in this respect up to now, it will be also in the future, and that in constantly increasing measure, because due to the still for a long time inexorably increasing overpopulation it results that more and more humans in the coming decades up to the 3. As a result of the still for a long time unstoppable increasing overpopulation, more and more people will become addicted to alcohol, drugs and jealousy, greed for money, violence, sexual abuse of children, abuse of children and women and rape, as well as prostitution, which will be allowed and taxed by the state in the future, and all these degenerations will become big problems. In the future also more and more consciousness-impaired as well as psyche-sick people will appear, who will suffer from heavy depressions and many other illnesses of a damaged consciousness and a damaged psyche. The origins of this will be founded in the many effects and things of the overflowing overpopulation, as for example in a fanatically degenerating political, religious, sectarian delusion, in religious and sectarian superstition, in delusions caused by alcohol and drugs, fantasies and illusions, unrealities, sensory illusions, deceptions, delusional visions, wishful images, mirages and suggested mad and confused inspirations of unscrupulous seducers. The rapidly increasing overpopulation will also have a very lasting and detrimental effect on bad morals as well as on evil behaviors, diseases and sufferings of the people, as it will result e.g. with regard to anankastic neuroses, impulsions, morbid passions, as well as with regard to manias, excessive desires and addictions, whereby also frenzy, raving madness and foolhardiness, rage, obsessive-compulsive disorder, obsessive-compulsive neurosis and obsessive-compulsive disorder etc. will be part of it. And the overpopulation will also bring about an effeminacy of thoughts, feelings and the psyche, of the body as well as the unsteadiness of life, which will spread in mankind in general, so that even small tensions and efforts will lead to heat waves, fever, delusion and collapse. But it will also result in strange imaginations, delusional phenomena, fantasies, unrealities and dizziness. In the coming decades and far into the 3rd millennium, countless people will fall prey to morbid thoughts, feelings and thus confusions of consciousness and severe mental disorders, which will result in the future in a reduction of life control and quality of life, namely in a softening of life. Also disinterestedness in life, lack of courage to face life and tiredness of life will spread far and wide and will lead to many suicides. Also an extensive lack of interest and indifference concerning the own development of consciousness, the personal values of well-being, education, self-knowledge and self-worth will be the order of the day especially among many younger people. And what will be related to the own person concerning the indifference will also be transferred to others and will prevent connecting relationships between people more and more and finally dissolve them. This will not only create relationship-less conditions in society, but also in families, in acquaintances, friendships and partnerships, whereby people will become strangers to each other, meaningless and indifferent, and consequently all will go their own ways. In the future, however, it will also be the case that many people will be

The result is a degenerating destructive change of the ability of the consciousness to comprehend, understand and process. And this will already begin to happen in the course of the next decades, which will express itself in a detrimental way especially in the case of young and younger people with regard to their negative way of life and regression. The wrong upbringing of the parents concerning their offspring, which is still and will be more and more widespread in the future, softens and degenerates their ability to think and reason, which is deposited in the genes and is in turn passed on to their offspring by the offspring. Thereby, growing out and mutating by the growth of the overpopulation, the mind and the reason of the descendants become weaker, which leads to the fact that increasingly a chaotic mind-reason-control develops, which is also expressed in all relationships in a life-disadvantageous way. A wrong upbringing promotes in the offspring not only the general effeminacy and of mind and reason, but also a low intelligence development and physical impairments of many kinds. And it is a fact that these disadvantageous changes are inexorably inherited by the rapidly increasing overpopulation and let the majority of mankind - admittedly only very slowly, but inexorably - become more and more stunted with regard to intellect and reason. And this leads further to the fact - as since time immemorial - that only people can assert and raise themselves to the government power and to similar and same-directed offices and positions who are powerful to a large extent controlling their mind and their reason. And the majority of these people in power - just with exceptions, who are of solid character, honorable, integer and trustworthy - can suggestively and rhetorically use and exploit the majority of the people, who are inferior in intellect and reason, pull them to their side and bring themselves to the power of government. Or it is people who are weak in reason and understanding who make it into governments, offices and high positions of responsibility through relationships, falsehood, violence, lies and deceit, hypocrisy, ruthlessness and the art of over-talking. But what the future will bring is the fact that in general many people will fall into nefarious indecencies, becoming dissolute, immoral, unseemly, indecent, depraved, amoral, disreputable, wretched, bad, indecent, immoral, vulgar, and depraved, etc. Reality and truth are no longer perceived as real, therefore more and more mental confusion arises and people create false models, ideals, guiding principles, utopias as well as delusions and desires and thus become without own initiative and without own opinion, whereby they fanatically and morbidly jealous of things, actions and deeds of other people. In this way, unrealities are created, which degenerate into lack of content in life and do not allow any valuable and educating thoughts, feelings and no own performance and opinion, whereby only the performances, actions, opinions and deeds of other people are recognized, reproduced and brought to the fore. Esoteric groups and organizations, religions, sects and philosophies etc., which are alien to reality, will also increasingly dominate the believers and keep them away from reality and truth - as they have done since time immemorial - and lead them astray. In the future, religion- and sect-sponsored delusions will increase worldwide and make the believers fall prey to nonsensical illusions, dazzling works, conceits, illusions, lies of faith, pretences, delusions, juggleries and unrealities. Superstition, belief in ghosts and spirits, sectarian clairvoyance, divine messages and religious miracle-working will reach new heights in the future, as will the fear of spirits, mysticism, belief in miracles and delusions. All this will be irresponsibly controlled by lies and deceit of religions and sects and their fanatic and power-obsessed advocates, who gather many believers around themselves and seduce them in the name of a pretended creator god to torture, violence, war, murder, rape and destruction, in order to torture and kill innocent people as god warriors and thereby come to their alleged god in paradise. In this way it will be that in the coming decades such incidents will be prepared and then later practiced and until far into the 3rd millennium will bring murder, death and destruction over the whole world and its mankind. So, in time, misguided people will appear in droves, who, as cult-controlled and terrorist radicalized and delusional people, will bring murderous disaster, suffering, misery, distress and grief over the people of the whole world. And they will do this as individuals or in groups, as fanatical holy warriors and avengers, murdering countless innocent people, causing great destruction and irretrievably destroying even very old cultural assets. But in the future there will also be more and more mothers who murder their newborns as well as their already older children, while other women, as well as men, commit more and more criminal as well as capital and serious criminal acts, which often end fatally. And if such acts happen, then, as a result of a questionable humanistic effeminacy, ever worse reprehensible acts directed against life, limb and property of the people are committed and acts are carried out, for which the perpetrators, however, are not always able to prove their innocence.

in misunderstood humanity are held far too leniently accountable and thereby animated to continue in their actions and deeds. Also, in the coming decades an official, legal murder for people willing to die will arise, which will be called 'suicide' and will cause a so-called 'death tourism'. In this way, irresponsible people willing to die will be allowed to enter countries, where the legalized honorless and undignified systematic murder of people with deadly narcotics by irresponsible murderous people will be allowed, as it was practiced by the Nazis in the Nazi empire and will also apply to Switzerland in the near future. Everything explained and said so far corresponds to predictions of coming events, as I have seen them in the future and have now brought them to you.

Everything spoken by myself, as well as all what you say yourself, will be recorded and stored extensively by a very highly developed phonographic apparatus, by which it will never be lost, consequently everything will be retrievable even after a very long time. However, it will be of necessity for you and your task and mission that I have to explain many more predictive facts to you, but which must not be told by you and therefore must not be mentioned openly. Consequently you are not allowed to write them down for remembrance, but only those facts, explanations and predictions which I am allowed to tell you for your work of your letters to be written by you, which you are to write from the 1950s on and send to all governments of the world and to well-known public media, like journal, radio and newspaper editorships, as well as to various well-known organizations. Only in the more distant future will you be allowed to speak openly about the contents of our conversations, if you so request, which you will indeed do, as I have seen by looking at you in future times. With this, enough shall be explained and said for today.

**Eduard** It is also apt enough, and to be honest, my head is smoking, and I am glad that you do not want to explain and say more now. Nevertheless, I would have a question, if you allow?

**Sfath** You can always ask what you want, because on the one hand it is important that you ask questions when you are interested in something, and on the other hand it is my duty to always answer all your questions.

**Eduard** Thank you, you have said this before. It's that you said a word that I've never heard before, nor understood the meaning for it.

**Sfath** What was that?

**Eduard** You said phonography apparatus or something. What is that?

**Sfath** This is an electrical engineering apparatus which is not yet in development on earth, but which already has precursors in earthly electrical development and corresponds to a sub-area of information technology and electronics and is concerned with the recording, representation, transmission and processing of digital quantities and represents digital quantities in digits.

**Eduard** I do not understand and can therefore do nothing with your explanation.

**Sfath** The phonography apparatus is an apparatus that records sounds in an aloud script and can reproduce noises, sounds, music, tones, and of course speech. If you are interested in this, I will teach you about it at a later time.

**Eduard** If you think so? But what interests me now: So this thing, this apparatus, it records everything that is spoken and can then be tapped again?

**Sfath** Yes, everything is recorded, every tone, every sound and every noise, which can then be listened to again. But the phonography apparatus can do much more, because it converts every spoken word also into characters, consequently, at the same time, everything spoken with words is also recorded in writing as a document.

**Eduard** Now I understand. Thank you for the explanation.

**Sfath** Then I will take you back now, but today not to Langenzinggen, because I think that after dark the way from there to home is too far for you, so I will drop you off off the Feldstrasse behind the big barn in Erachfeld. From there you will be home in a few minutes, although I also think that our future meeting place should also be there, because it is a safe place and people rarely pass by there. Only next Saturday afternoon I will come again, take you away and continue teaching.

## **PRESENTATIONS 2016**

In 2016, FIGU speakers will again give Spiritual Science lectures, etc. in the Center's hall:

### **August 27, 2016:**

Michael Brügger

#### **Certainty and conviction**

*Why certainty is always better than being convinced of yourself or something!*

Christian Frehner

#### **Spiritual teaching in everyday life**

*Application and practical examples.*

### **October 22, 2016:**

Patric Chenaux

#### **Self-confidence and self-assurance**

*About the importance of trusting yourself and building a healthy and stable self-security.*

Bernadette Brand

#### **Reality-based**

*Match your own thinking with reality.*

Punctual start of the lecture at 14.00.

Admission: CHF 7 (admission discount for FIGU members upon presentation of a valid ID).

On lecture Saturdays, a study group meets at the Semjase Silver Star Center at 7:00 p.m. All interested lecture attendees are invited to attend.

The core group of the 49

## **PREVIEW 2017**

The next Passive Group meeting will be held on May 27, 2017 (Attention: 4th weekend).

### **Notice:**

Children under 14 years of age without passive membership, in order to avoid infiltration by the FIGU will not be admitted to the Passive GA.

The core group of the 49

## **Important note**

Due to the increasing number of articles worth reading that appear outside the state-dependent media, the FIGU Zeitzeichen have no longer been available in printed form since January 2016. However, the FIGU Zeitzeichen can be downloaded free of charge from the FIGU website.

## **IMPRINT**

### **FIGU Special Bulletin**

**Printing and Publishing:** Wassermannzeit-Verlag, Semjase-Silver-Star-Center, 8495 Schmidrüti,  
**Switzerland** **Editing:** 'Billy' Eduard Albert Meier, Semjase-Silver-Star-Center, 8495 Schmidrüti,  
Switzerland Phone +41(0)52 385 13 10, Fax +41(0)52 385 42 89

**Subscriptions:**

Published irregularly; price per single issue: CHF 2.-

(Together with a subscription to the 'Voice of Aquarius Time' or the 'Spiritual Letters' as a free supplement).

**Postcheck account:** FIGU, 8495 Schmidrüti, PC 80137033, IBAN: CH06 0900 0000 800137033

**E-letter:** info@figu.org

**Internet:** www.figu.org
